

Kaitoke Regional Park Management Plan Review: Summary of Submissions

| Name | Submission | Submission Form | | | | | | GW comments |
|------|-------------------|---|---|--|---|--|---|---|
| | | Likes | Improve | In 20 yrs | Activities | Impt values | Plan refs. | |
| 01 | Ted Bradstock | Park is a jewel, congratulations and thanks, often picnics would like no change | | n/a | | | | Covered by network plan provisions |
| 02 | Glen Falconer | Happy with things to date. would like Hutt catchment to become part of park and allow camping in catchment, like track to link Maymorn ridge and route along Maymorn and Renata Ridges, | Stock fenced Booking areas | Traffic mgmt More pest mgmt | Route around catchment | tramping Dog walking | Biodiversity People mgmt facilities recreation | Copied to GW Water – Hutt Catchment covered by GW water Collection Areas Draft Asset Management plan |
| 03 | Terry Porritt | Has concerns about signage and track marking, would like a reassessment of no camping in water collection area and clubs advised of track marking practices, access from Cloustonville makes one day walks in the catchment difficult. Would also like to see a track cut from Akatarawa Road and through Putaputa or Kerekere streams. Or from Frances Stream/Fern Valley to Tararua Forest Park. Encroachment of landowners. Logging of native trees. Better signs and 1080 practices | Active encouraging use & access, regeneration | Ridge track surface, gorse Cloustonville access Signs to Renata | Same - NOT excessive development | Tramping Dog walking | Bush & river 3.2.10 3.1.2 3.1.1 3.2.12 | Copied to GW Water – Hutt Catchment covered by GW water Collection Areas Draft Asset Management plan. Will assess comments with potential tracks Address specific 1080 comments separately in a letter to submitter |
| 04 | Dean Bowden | Local landowner on Waterworks Road – would like to discuss opportunities for unobtrusive commercial activities within the park | | n/a | | | | Provided for in current concessions policy and network plan |
| 05 | Margaret Aldridge | | Picnic/walking/camping NOT commercial | More toilet facilities | | | | Assess need for further toilet facilities & asset service standards |
| 06 | Bill Patchett | Local resident | high standard maintenance, excellent facilities, ranger | BBQ facility, landscaping in water pool area | Left to develop naturally | Walking, Dog walking, Enjoying the natural environment | Provides for activities, great place to de-stress | Will assess comments and needs with potential developments to be included in draft plan |
| 07 | Bruce Burley | Local resident | Walking with dog | Nothing | | Dog walking | Peaceful with lots of space | Covered by network plan provisions |
| 08 | Alison Patchett | Local resident | high standard maintenance, friendly ranger | Gorse eradicated | Continued high maintenance | Walking, dog walking | Great place to unwind, promotes green & clean | Covered by network plan provisions – examine pest management plans |
| 09 | NZMCA | Supports 3.4.10 but would like camping/ motorhome recreation distinction made | | n/a | | 3.4.10 | | Assess need & asset service standards |
| 10 | Barry Wards (F&B) | | Good mix regen/ancient forest, well maintained tracks, superb rec facilities, good signs & info, rangers, opportunities for community involvement | Erosion control, more community responsibility, education re waste, landscapng around McCaskill Lakes, track b/w camping & u carpark | Mores established native plantings, wetland in Te Marua more native birds | walking | Ecological, recreational, historical, accessibility | Covered by network plan provisions Will assess comments and needs with potential developments to be included in draft plan |
