

HAVE YOU SEEN THIS KILLER?

Answers to the name of Cape Ivy. You may have some in your garden. If so, get rid of it now. Cape Ivy smothers low-growing native plants by scrambling over shrubs up to two metres tall.

Pull it out and take the pest to your nearest landfill. To do more for the region's environment go to www.bethedifference.gw.govt.nz now and join our programme.

WANTED

DEAD NOT ALIVE

Have you seen this plant in your garden? If so get rid of it.

It's Wandering Willie. It forms a thick mat on the forest floor, smothering low-growing plants. This stops the regeneration of all native plant species.

Pull this plant out of your garden, take it to a landfill and help the Wellington region's native plants. To do more for the region's environment go to www.bethedifference.gw.govt.nz now and join our programme.
