Eastern Bays Shared Pathway

Minute 5 of Hearing Panel: Minor Corrections to Resource Consents

1. On 5 March 2021, the Hearing Panel granted resource consent, subject to conditions, for the Eastern Bays Shared Pathway.
2. Section 133A of the Resource Management Act 1991 enables a consent authority that has granted a resource consent to, within 20 working days of the grant, issue an amended consent that corrects minor mistakes or defects in the consent.
3. On Friday 19 March 2021, the Hearing Panel was advised by Greater Wellington Regional Council that they were a number of minor errors in the resource consent conditions and requested the Panel issue an amended set of resource consent conditions to correct these errors. In the set of resource consent conditions issued as an appendix to the decision report, the following errors were identified:
 - The definition of Little Penguin Group omitted the word ‘groups’, and should read “... Eastbourne pest control groups...”
 - GC.23 contained an error message, indicating a lost cross-reference to another condition – the condition being cross referenced should read GC.20
 - GC.24 contained an error message, indicating a lost cross-reference to another condition – the condition being cross referenced should read GC.20
 - EM.2 (d) read “....install signage in accordance with Condition LV.7 (k) and (l)” – the correct cross-reference should read “....install signage in accordance with Condition LV.7 (l) and (m)”.
 - EM.8 – the second line in the third paragraph incorrectly referred to Condition EM.1(i) – the correct cross-reference should read “...(including pest management timing/location with Condition EM.1(j)) ...”.
4. The Panel has considered the request from GWRC and agree the minor corrections to the conditions do not impact on the purpose of the conditions to provide acceptable environmental outcomes from the Project.
5. Accordingly, this minute formally records the Panel’s decision to correct the resource consent.
6. The amended set of resource consent conditions is available on the GWRC website at <https://www.gw.govt.nz/EasternBaysSharedPath>
