Rule R42: Minor discharges - permitted activity	Wellington Recreational Marine Fishers Association	S32/058	Amend	Change the term "zone of reasonable mixing" to "agreed sampling method" [where it appears throughout the Plan]. Describing that freshwater and seawater mix is not true as they do not readily mix. [See original submission for detailed description of difficulties associated with the term "zone of reasonable mixing" and wastewater samples].
Rule R42: Minor discharges - permitted activity	Fish and Game	S308/086	Amend	Give effect to relief sought for policy P71 and apply the standards as amended in relation to policy P71
Rule R42: Minor discharges - permitted activity	Ravensdown Limited	S310/042	Support in part	Provide an interim rule regime providing for farming activities until the whitua process introduces limits into the NRP by a plan change, but either: <ul style="list-style-type: none"> • Amending Rule R42 to include provision for farming activities; • Introduce a new rule that specifically provides for farming activities.
Rule R42: Minor discharges - permitted activity	Dairy NZ and Fonterra Co-operative Group Ltd	S316/095	Not stated	Clarify the purpose and evidence basis for setting a 50 mg/m3 TSS guideline on Schedule A, F1, F3 or F4.

Rule R42: Minor discharges - permitted activity	Nga Hapu o Otaki	S309/033	Oppose in part	Amend value of minor discharges to 30g/m3 in all waterways. Include Nga Taonga Nui a Kiwa (schedule b) in subsections (b) and (i)
Rule R42: Minor discharges - permitted activity	Beef and Lamb NZ	S311/011	Amend	Rewrite and align R42, R69 and R93 to provide for land uses that result in discharges to land where they may enter water, being a permitted activity, where the permitted land uses includes, but is not limited to, all forms of primary production.
Rule R42: Minor discharges - permitted activity	Fertiliser Association NZ	S302/055	Support in part	Retain Rule R42 as notified but may need to review once significant wetlands have been mapped.
Rule R42: Minor discharges - permitted activity	Powerco	S29/043	Support	[Retain Rule R42 on the basis that it applies only to contaminated land as currently defined in the plan].
Rule R42: Minor discharges - permitted activity	Rangitane o Wairarapa Inc	S279/165	Amend	Amend Rule R42(b)(i) to include reference to the following additional sites of significance: Schedule B, C, F1b, F1c, F2a, F2b, F2c, F5, H. Amend "zone of reasonable mixing" throughout the plan to ensure that the zone does not extent into sites of significance as identified in Schedules C and H. The permitted activity standard for total suspended solids should be reduced to no greater than 20g/m3.
Rule R42: Minor discharges - permitted activity	Forest Enterprises Growth Ltd	S275/003	Amend	Remove i.50g/m3 and ii. 100g/m3 tolerances and concentrate on zone of reasonable mixing
Rule R42: Minor discharges - permitted activity	Spencer Holmes Limited	S273/003	Amend	Retain the TSS limit.

Rule R42: Minor discharges - permitted activity	Porirua City Council	S163/086	Amend	Correct "discretion" in the second line to "discretionary".
Rule R42: Minor discharges - permitted activity	Federated Farmers of New Zealand	S352/187	Amend	<p>Rule R42: minor discharges <u>to water</u> - The discharge of contaminants into water, or onto or into land where it may enter water that is not permitted, controlled, restricted discretionary, discretion, non-complying or prohibited by any other rule in this Plan is a permitted activity provided the following conditions are met:</p> <p>a) where the discharge may enter groundwater, the discharge is not located within 50m of a bore used for water abstraction for potable supply or stock water, and</p> <p>b) where the discharge enters a surface water body or coastal water, the concentration of total suspended solids in the discharge shall not exceed:</p> <p>i) 50g/m3 where the discharge enters a site or habitat identified in Schedule A (outstanding water bodies), Schedule F1 (rivers/lakes), Schedule F3 (significant wetlands), or Schedule F4 (coastal sites), except when the background total suspended solids concentration in the receiving water is greater than 50g/m3 in which case the decrease in water clarity after the zone of reasonable mixing shall not exceed 20%, or</p> <p>ii) 100g/m3 where the discharge enters any other water, except when the background total suspended solids concentration in the receiving water is greater than 100g/m3 in which case the decrease in water clarity after the zone of reasonable mixing shall not exceed 33%, and</p> <p>c) ...</p> <p>e) iv) the fresh water is unsuitable for consumption by farm animals, <u>(e. coli > 1000/mg/L)</u> or...</p>
Rule R42: Minor discharges - permitted activity	Wainuiomata Rural Community Association	S164/002	Amend	We suggest that "contaminant" is defined. At present, "contaminated land" is defined as is "hazardous substances". However it is unclear whether contaminant is a separate category. We also recommend that evidence be provided as to why these particular measures (50 g/m3 and 100g/m3) have been chosen and suggest that a sliding scale would be more effective.

Rule R42: Minor discharges - permitted activity	Transpower NZ Ltd	S165/027	Support	Retain
Rule R43: Water to water - permitted activity	Vector Gas Ltd	S145/054	Support	Retain Rule 43
Rule R43: Water to water - permitted activity	NZ Transport Agency	S146/144	Support	Retain
