S85.2

6.16 Freshwater  
Action Plan  
programme

Amend

Amend to include  
"in partnership with  
tangata whenua" in  
the statement  
around monitoring  
the effectiveness of  
the Freshwater  
Action Plans.

We support  
partnership  
directives for the  
creation of the  
freshwater action  
plans, but we  
believe there is also  
a role for mana  
whenua to measure  
and understand the  
effectiveness of  
actual outcomes in  
either pūtaiao or  
mātauranga Māori  
(which only  
Tangata whenua  
can do).

S85.3

5.4.4 Uses of  
beds of lakes  
and rivers  
general  
conditions.

Amend

Amend to include  
additional  
mechanism to  
consult with  
tangata whenua for  
activities in the  
beds of lakes and  
rivers.

The proposed  
changes to the  
beds of lakes and  
rivers rules are  
generally  
supported to  
improve drafting  
clarity.

However, the use  
of beds of lakes  
and rivers may  
have adverse  
effects on cultural  
values. While these  
rules ensure that  
consents are  
required where the  
activity occurs in a  
Schedule C Site of  
Significance for  
Mana Whenua, this  
does not ensure  
that sites that are  
not recorded are  
protected.

There are many  
sites of significance  
that may not be  
recorded in the  
district plan where  
hapū and whanau  
are hesitant, for  
many reasons, to  
share this  
information.

S85.4

Rule R128: New Amend  
structures –  
permitted  
activity.

Amend to include  
additional  
mechanism to  
consult with  
tangata whenua for  
activities in the  
beds of lakes and  
rivers.

The proposed  
changes to the  
beds of lakes and  
rivers rules are  
generally  
supported to  
improve drafting  
clarity.

However, the use  
of beds of lakes  
and rivers may  
have adverse  
effects on cultural  
values. While these  
rules ensure that  
consents are  
required where the  
activity occurs in a  
Schedule C Site of  
Significance for  
Mana Whenua, this  
does not ensure  
that sites that are  
not recorded are  
protected.

There are many  
sites of significance  
that may not be  
recorded in the  
district plan where  
hapū and whanau  
are hesitant, for  
many reasons, to  
share this  
information.

S85.5

Rule R132:  
Minor sand and  
gravel  
extraction –  
permitted  
activity.

Amend

Amend to include  
additional  
mechanism to  
consult with  
tangata whenua for  
activities in the  
beds of lakes and  
rivers.

The proposed  
changes to the  
beds of lakes and  
rivers rules are  
generally  
supported to  
improve drafting  
clarity.

However, the use  
of beds of lakes  
and rivers may  
have adverse  
effects on cultural  
values. While these  
rules ensure that  
consents are  
required where the  
activity occurs in a  
Schedule C Site of  
Significance for  
Mana Whenua, this  
does not ensure  
that sites that are  
not recorded are  
protected.

There are many  
sites of significance  
that may not be  
recorded in the  
district plan where  
hapū and whanau  
are hesitant, for  
many reasons, to  
share this  
information.

---

S85.8

Rule R145: All other uses of river and lake beds – discretionary activity.

Amend

Amend to include additional mechanism to consult with tangata whenua for activities in the beds of lakes and rivers

The proposed changes to the beds of lakes and rivers rules are generally supported to improve drafting clarity.

However, the use of beds of lakes and rivers may have adverse effects on cultural values. While these rules ensure that consents are required where the activity occurs in a Schedule C Site of Significance for Mana Whenua, this does not ensure that sites that are not recorded are protected.

There are many sites of significance that may not be recorded in the district plan where hapū and whanau are hesitant, for many reasons, to share this information.
