Direction to cease abstraction will be given when:</p> <ol style="list-style-type: none"> <li>The water level in Lake Wairarapa is at or below the minimum target lake levels*, and</li> <li>The levels in the lake have been receding for the preceding five days, and</li> <li>The flow in the Tauherenikau River at Gorge falls below 1300 litres/second.</li> </ol> <p>Only once all three triggers levels occur simultaneously must abstraction cease.
